SIZES OF COINS AND MEDALS

in this Catalogue given in Millimetres

FOREWORD.

In offering this unrestricted sale of **Antiques, Coins, Medals, Paper Money, Documents and Gems**, belonging to several collectors, it should be pointed out that the lots contain material of an unusually good quality.

In antiques of the Egyptians, Babylonians, Greeks and Romans, the idols, scarabs, glass and beads are exceptionally fine.

The gems include attractive specimens, all of which are suitable for mounting.

Many rare and fine specimens of the old American paper money, issued between the years 1757 and 1870 are listed, together with bills signed by men who put their signatures to the Declaration of Independence. In northern paper money, there is an extensive offering from New York and Jersey. This old paper money is highly interesting, bearing original ink signatures of officers, many quaint portraits and commercial scenes of other days. Constantly growing scarcer, there will be no reissues, hence its value is increasing and it should be collected a great deal more than is done at present.

There is a collection of tickets of old lotteries, upon which subject the entire public eye seemed at one time to be centered.

Early numbers of the "New York Albion", record the musical, poetical, dramatic, naval and literary history of both Europe and America for 1830 and 1831.

An especially fine and large line of Greek and Roman silver and bronze coins, and modern medals, will appeal to the numismatists and artists.

Old English gold, and some choice early United States eagles, half eagles and smaller gold coins, cannot fail to interest collectors.

But one sale session will be held, the lots having been so varied in the catalogue as to prevent interest from lagging.
